WARE MALCOMB ANNOUNCES COMPLETION OF NEW TAYLORMADE CANADA OFFICES, GOLF LABORATORY AND PRODUCT SHOWROOM

TORONTO (September 14, 2018) – Ware Malcomb, an award-winning international design firm, today announced construction is complete on the new Canadian headquarters of [TaylorMade](#), a leading manufacturer of golf clubs, bags and accessories. The new TaylorMade Canada headquarters is located at 6240 Highway 7, Suite 100 in Woodbridge, Ontario. Ware Malcomb's role was prime consultant providing interior architecture & design services, and managing mechanical and electrical engineering consultant services.

The new 1,860 square meter TaylorMade one-storey facility includes the company's corporate offices, as well as a golf laboratory and product showroom that are open to the public. The consumer-facing space features three state-of-the-art golf performance labs, a putting green, and a workshop designed to build custom-ordered TaylorMade products on-site.

The facility's interior design honours the sport of golf and its storied history in Canada, one of TaylorMade's largest markets. Many of the showrooms and meeting spaces were named after some of Canada's best golf courses, including the Banff Springs Room and Capilano Room. Other areas feature the names of TaylorMade club professionals from across Canada, as well as the winners of Professional Golf Association (PGA) tournaments in Canada.

"TaylorMade wanted an innovative facility that would provide an inspiring atmosphere for its employees, customers and partners alike," said Frank Di Roma, Principal of Ware Malcomb's Toronto office. "This new stand-alone facility reflects the core values of TaylorMade, as well as the sport of golf's tremendous history and influence in Canada."

The general contractor for this project was ZZen Design Build.
