WARE MALCOMB ANNOUNCES CONSTRUCTION IS COMPLETE ON NEW FACILITY FOR CGI WINDOWS AND DOORS

MIAMI (December 5, 2018) – Ware Malcomb, an award-winning international design firm, today announced construction is complete on the office and manufacturing facility of [CGI Windows and Doors](#) located at 3780 W 104th Street within the Countyline Corporate Park in Hialeah, Fla. Ware Malcomb provided architectural design services for the project.

Ware Malcomb designed the new 325,000 square foot concrete tilt up building with a neutral color palette of warm tones and white. CGI Windows and Doors recently relocated to the new facility from a smaller location in Miami in order to accommodate the company's growth.

"We worked closely with CGI Windows and Doors to design a custom facility that is flexible enough to meet the various needs of the company, its employees and its customers – now and in the future," said Rei Gomez, Regional Manager of Ware Malcomb's Miami office. "This new building in Countyline Corporate Park provides the unique combination of state-of-the-art industrial amenities within a business park setting."

Ware Malcomb previously provided master planning services for the overall Countyline Corporate Park project. The firm has since provided architectural design services for five of the stand-alone buildings within the Countyline Corporate Park, including this 325,000 square foot facility for CGI Windows and Doors and a 473,000 square foot build-to-suit facility for [KLX Aerospace Solutions](#).

The general contractor for the project was [Miller Construction](#).
