WARE MALCOMB MOVES TO LARGER PHOENIX OFFICE

PHOENIX (January 22, 2019) – Ware Malcomb, an award-winning international design firm, today announced the firm has moved to a new, larger office space located at 2777 E. Camelback Rd, Suite 325 in Phoenix. The move accommodates Ware Malcomb’s growing employee and client base in the region.

“We are excited about the growth we have achieved, as well as our prospects for additional expansion in the years to come in this dynamic market,” said Kevin Evernham, Principal of Ware Malcomb’s Phoenix office. “This new, larger office space accommodates our firm’s needs now and in the future. In addition, our new location in the financial district of Phoenix places us in closer proximity to many of our long-standing clients.”

Ware Malcomb provided interior architecture and design services for the new Phoenix office, incorporating the latest in interior design trends, as well as the firm’s own design standards. The new work environment fosters collaboration while also allowing for privacy and heads down work when needed. It features different types of workstations to promote a more activated work environment and cater to each individual’s work preference.

The entry to each Ware Malcomb office conveys a hospitality feel, providing an open and inviting welcome punctuated with iconic pieces of furniture. The overall color palette is branded to Ware Malcomb and includes customized environmental wall graphics to emphasize the firm’s work and connection to the company’s core mission statement.

WM Branding, Ware Malcomb’s in-house branding studio, worked with the regional team in Phoenix to create a new work environment that reflects the local community and surrounding area, as well as the office’s client base.

Ware Malcomb has been operating in the Phoenix market since 2006, providing architecture and interior design services. Recent projects include: providing interior architecture and design services for the new 35,000 square foot office and call center of Varsity Tutors in Phoenix; providing architectural design services for the 56,000 square foot Mercy Medical Commons II medical office building in Gilbert; and providing interior architecture and design services for the new 170,000 square foot office and manufacturing headquarters of Western Window Systems in Phoenix.
