WARE MALCOMB EXPANDS AND RELOCATES TO NEWARK

Firm Moves its Office to Larger Location in Newark; Closer to Clients in Vibrant Growth Market

NEWARK, N.J. (October 15, 2019) – Ware Malcomb, an award-winning international design firm, today announced it has expanded and relocated to Newark, N.J. in a new, larger office space located at 110 Edison Place, Suite 303 in the iconic [Ironsides Newark](#) building. Ware Malcomb also maintains offices in the region in Princeton, N.J. and New York, N.Y.

The firm’s move to Newark was driven by the growth of its local employee and client base, as well as the opportunity to be closer to clients in a vibrant growth market. [JLL](#) served as broker and was instrumental in the site selection process for Ware Malcomb.

“Ware Malcomb’s Newark office will provide us with an ideal regional growth platform, offering the best opportunities to recruit new talent and expand our business in this exciting city,” said Michael Bennett, Principal of Ware Malcomb. “We are proud to be at the forefront of a growing trend to be a part of Newark’s revitalization. Our new office location meets all of our business objectives and is an ideal fit for our company culture.”

Ware Malcomb’s Newark office incorporates workplace strategy, the latest in interior design trends, as well as the firm’s own design standards. The entry to each Ware Malcomb office conveys a hospitality feel, providing an open and inviting welcome punctuated with iconic pieces of furniture. The color palette, finishes and materials reflect the Ware Malcomb brand colors of vibrant orange with white and grey accents. The work environment fosters collaboration while also allowing for privacy and heads down work. It includes two different types of workstations – a benching station and a desking station, some with adjustable desk heights – to provide a variety of work options and cater to individual work preference.

In addition to implementing the firm’s design standards across its offices in North America, Ware Malcomb’s in-house Branding Studio also incorporates unique branded graphics in each regional office that reflect the local community and surrounding area, as well as the office’s client base.

“We designed our Newark office with an emphasis on collaboration to create an inspiring space for our clients and team members alike,” said Marlyn Zucosky, Director of Interior Architecture & Design for Ware Malcomb’s Newark and Princeton offices. “Being part of Ironsides Newark provides our team members with a modern workplace and an attractive office and retail destination.”

Recent projects completed by Ware Malcomb’s New Jersey teams include: interior design services for L’Oréal’s The Hub office, Miele USA’s office renovation and Princeton Longevity Center’s medical offices, and architectural design services for 640 Columbia and Brooklyn Logistics Center.

About Ware Malcomb (waremalcomb.com)

Established in 1972, Ware Malcomb is an international design firm providing planning, architecture, interior design, branding, civil engineering and building measurement services to commercial real estate and corporate clients. With 24 office locations throughout the United States, Canada, Mexico and Panama, the firm specializes in the design of commercial office, corporate, industrial, science & technology, healthcare, retail, auto, public/educational facilities and renovation projects. Ware Malcomb is recognized as an Inc. 5000 fastest-growing private company and a Hot Firm and Best Firm to Work For by Zweig Group. The firm is also ranked among the top 15 architecture/engineering firms in Engineering News-Record’s Top 500 Design Firms and the top 30 interior design firms in Interior Design magazine’s Top 100 Giants.
