## **WARE MALCOMB ANNOUNCES COMPLETION OF DSV CANADA HEAD OFFICE AND LOGISTICS FACILITY**

### *New 102,264 Square Meter Facility is the Largest of its Kind in the DSV Worldwide Network*

**VAUGHAN, Ontario (August 03, 2020)** – Ware Malcomb, an award-winning international design firm, today announced construction is substantially complete on the new [DSV](#) Canada head office and logistics warehouse facility located at 2200 Yukon Court in Milton, Ontario. In collaboration with the design architect [AK83](#), a Danish architecture company, Ware Malcomb served as architect of record for the project.

The new 102,264 square meter complex – the largest facility of its kind in the DSV – Global Transport and Logistics worldwide network – includes a multi-client warehouse and distribution centre with state-of-the-art logistics capabilities and temperature-controlled compartments and cooler areas. The attached three-storey corporate office is comprised of 4,415 square meters of office space including a large facility for the company's 800 employees at the mezzanine level. Overall, the project features a unique, modern façade and interior design with considerable thought given to materiality, sustainability and innovation.

"We worked closely with DSV to ensure that this new facility would seamlessly integrate DSV's three divisions – Air & Sea, Road and Solutions – under one roof," said Frank Di Roma, Principal of Ware Malcomb's Canada offices. "All aspects of the design focused on innovation and collaboration in order to better serve DSV's customers and position the company for a limitless future in Canada."

The project is seeking LEED Silver Certification from the Canada Green Building Council.

The General Contractor for the project was [Leeswood Construction](#).

### **About DSV – Global Transport and Logistics ([ca.dsv.com](http://ca.dsv.com))**
